## GEORGE IV: Art & Spectacle

Dear Members,

'George IV: Art and Spectacles' is a jewel box of treasures assembled by the Prince of Wales at Carlton House, and later for Windsor and Buckingham Palace.

As a reflection of the taste and discernment of the British 'Sun-King' the Royal Collection has put together an exhibition of his collection which reflects his celebration of victories in Europe and embraces the very best examples of European fine and decorative arts.

Come and join us in "Prinny's" Palace on **TUESDAY 11<sup>th</sup> February** and see some of the greatest of all European treasures!

*This is a joint event between the Anglo-Belgian and the Franco-British Societies and is especially appropriate as this stunning exhibition brings together Dutch and Flemish Masterpieces with the finest of French Fine and Decorative Arts*
